

1M VISITORS

This week Monaco Pavilion passes the one million visitors. Michele and Antonella from Basilicata were the visitors number 1.000.000 and 1.000.001. The young couple was welcomed by the Director of Communication and Protocol, Mr Alexandre Bocquillon and had the privilege to experience a real VIP treatment, with a special guided tour of the Pavilion, a glass of Champagne Royal Riviera in the VIP Lounge and finally two gift bags with a little container and a branded mug of the Pavilion.

CLOSING PARTY

On the 26th the Blue Note, the Milanese temple of Music, was the perfect venue for the Expo Closing event organized by Radio Monte Carlo, Official Media Partner of the Pavilion. During the Dinner, guests were delighted by the vibrating rhythms of an Italian band and the Dj set with a perfect combination of Italian and Monegasque charm.

AWARDS

The participation of the Principality of Monaco in Expo Milano 2015 was highly acclaimed by visitors and media alike, for the innovation of the projects presented and the capability of reinterpretation of the Expo theme "Feeding the Planet". For these reasons the Pavilion has been recently awarded on the 30th of October by two very important institutions: BIE (Bureau International des Expositions) and Class Expo Awards for Pavilion Heritage. Monaco Pavilion received the silver award for the theme development in the self-built pavilions under 2000 square metres category by the BIE prize, the most valuable award among the Expo.

NEXT STEP (Soft Reminder)

The wonderful Expo experience is unluckily over but the journey of the Pavilion hasn't finished yet. Tomorrow the Pavilion will start its Second Life, towards the dismantling and the reconstruction in Africa where it will become a training centre for the Monegasque Red Cross. Stay tuned ... Pavillon Monaco is coming back soon ...
